# CENELEC BOARD

The CENELEC Board (CENELEC/Board) manages and administers the Association's business. In addition, it prepares the agendas of the General Assembly meetings, with inclusion of proposed recommendations, and ensures subsequently the correct execution of the decisions taken by the General Assembly.

The Board comprises ex officio the CENELEC functions (i.e. the President, three Vice-Presidents and the President-Elect) and up to nine other Board members, and the President-Elect as an observer. The members of the Board are appointed by the General Assembly.

The function status is primarily required for representation purposes, i.e. for the President to represent CENELEC, for the Vice Presidents and the President-Elect to represent CENELEC by delegation or on behalf of the President. The other Board members participate in and contribute to the important tasks entrusted to the Board.

➔ For more information about the CENELEC Board and its members, please visit the dedicated webpage.

## PRESIDENT AND VICE-PRESIDENTS

**Mr Riccardo Lama**  
*President*

**Mr Jos Remy**  
*Vice-President Technical*

**Ms Ewa Zielińska**  
*Vice-President Policy*

**Mr Karl-Heinz Mayer**  
*Vice-President Finance*

## BOARD MEMBERS

**Ms Nathalie Baumier**  
*France*

**Ms Annette Frederiksen**  
*Germany*

**Mr Jens Heiede**  
*Denmark*

**Mr Pambos Kammass**  
*Cyprus*

**Mr Enda McDonnell**  
*Ireland*

**Mr Oscar Querol**  
*Spain*

**Mr Jan-Anders Richert**  
*Sweden*

**Ms Anna Tanskanen**  
*Finland*

**Mr George Cutajar**  
*Malta*

# THE CENELEC COMMUNITY

## MEMBERS

CENELEC's National Members are the National Committees of the 27 European Union countries, the United Kingdom, the Republic of North Macedonia, Serbia and Türkiye plus three countries of the European Free Trade Association (Iceland, Norway and Switzerland). CENELEC members are national organizations entrusted with electrotechnical standardization, recognized both at national and European level as being able to represent all standardization interests in their country. Only one organization per country may be member of CENELEC.

➔ More information on CENELEC's membership can be found at this link.

### Austria

## AFFILIATES

The National Committees (NCs) of the countries formally recognized by the European Union as potential candidates for EU membership can become a CENELEC Affiliate. One criterion is for them to integrate fully the European Standardization System (ESS) in order to achieve technical harmonization within the framework of the European Single Market. Their goal is to adopt the CENELEC catalogue of standards and to bring a meaningful contribution to the technical work carried out in the CENELEC Technical Committees.

➞ More information on CENELEC's Affiliates can be found at this link.

## COMPANION STANDARDIZATION BODIES

The Companion Standardization Body (CSB) status is open to a National Committee (NC), which is a member or associate member of the International Electrotechnical Commission (IEC). Interested NCs work closely with CENELEC to achieve technical harmonization, and contribute to the removal of technical barriers to trade between their country and Europe.

## EUROPEAN PARTNERS

CENELEC foresees a series of formats to collaborate with European stakeholders on a variety of topics of common interest. Details on the forms of partnerships available and on their rules can be found in the [➡ CEN-CENELEC Guide 25](#) on 'The concept of Cooperation with European Organizations and other stakeholders'.

In 2024, CENELEC contributed with the following categories of stakeholders:

### PARTNER ORGANIZATIONS

The status of 'Partner Organization' is addressed to those organizations having an interest in cooperation at overall corporate and technical level with CENELEC.

[➡](#) The full list of the **13 CENELEC partner organizations** can be found at this link.

### LIAISON ORGANIZATIONS

The status of 'Liaison Organization' is offered to those European organizations, including fora and consortia, representing interest groups that are committed to provide input to the work of one or more CENELEC Technical Bodies.

[➡](#) The full list of the **38 CENELEC liaison organizations** can be found at this link.

## EUROPEAN COUNSELLORS

CENELEC, through the development and adoption of European (harmonized) Standards and other deliverables, actively contributes to the economic policy objectives of the European Union and European Economic Area.

In this context, CENELEC seeks effective partnership with those relevant European Institutions who have specific interest in the CENELEC standardization activities. This includes primarily the European Commission and the EFTA Secretariat, with whom CENELEC enjoys a consolidated private-public partnership through the "General Guidelines for the Cooperation between CEN, CENELEC and ETSI and  **European Commission** and  **EFTA**", the Framework Partnership Agreements and the annual Operating Grants.

## EUROPEAN INSTITUTIONAL STAKEHOLDERS

Considering the CENELEC mission and contribution to the objectives of the European Single Market, it is of primary importance to ensure, whenever necessary, full partnership with relevant European Commission's Agencies, Research Services or other European intergovernmental organizations.

 The full list of the 5 **CENELEC European Institutional Stakeholders** can be found at this link.

## OTHER PARTNER ORGANIZATIONS

In few specific and exceptional cases when the organization, or the nature of the partnership, do not fall under any of the above indicated categories, CENELEC may conclude specific partnership agreements on a case-by-case basis.

➔ The full list of the **18 CENELEC Other Partner Organizations** can be found at this link.

## ABOUT CENELEC

CENELEC (European Committee for Electrotechnical Standardization) is recognized by the EU and EFTA as one of the official European Standardization Organizations responsible for developing standards at European level. These standards set out specifications and procedures for a wide range of materials, processes, products and services.

The members of CENELEC are the National Electrotechnical Committees of 34\* European countries. European Standards (ENs) and other standardization deliverables adopted by CENELEC are accepted and recognized in all these countries.

European Standards contribute to enhancing safety, improving quality, facilitating cross-border trade, and strengthening the European Single Market. They are developed through a process of collaboration between experts nominated by business and industry, research institutes, consumer and environmental organizations and other stakeholders. CENELEC works to promote the international alignment of standards in the framework of the technical cooperation agreement with IEC (International Electrotechnical Commission).
